PROJECT MANAGEMENT, SIMPLIFIED

A better way to manage **finishing** projects

Manage tasks, notes, and team communication in one organized system — built for real site workflows.

Real-time tracking

Stay updated on every task instantly

Smart note capturing

Record issues directly from site

Team assignment

Assign and follow up with ease

Progress visibility

See the full picture across projects

— Everything organized. **Nothing missed.**

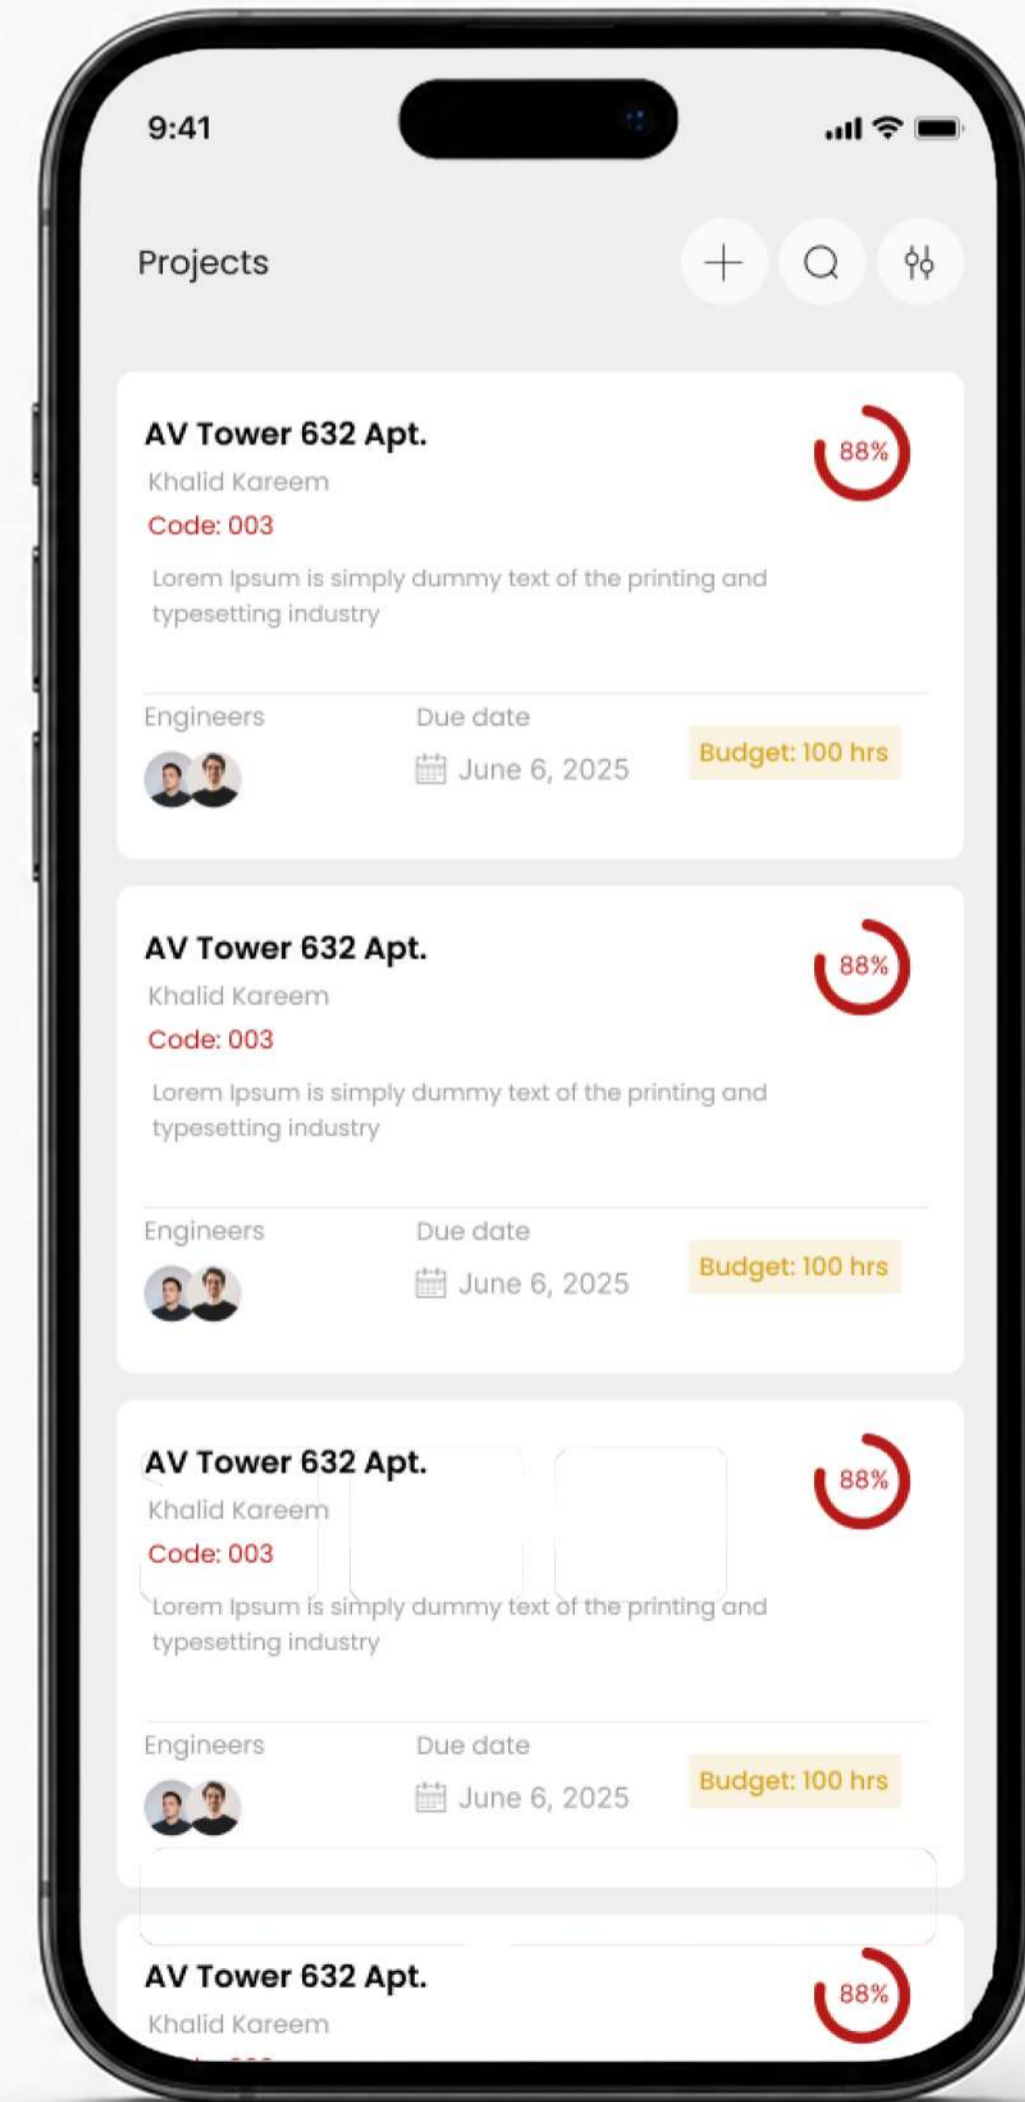

HOW INSIDER WORKS

From site issue to completed task — in minutes

A simple workflow designed for real finishing projects.

-  **1 Capture the issue**
Add a note directly from site with details and images.
-  **2 Assign the task**
Choose the responsible engineer and set priority.
-  **3 Track the progress**
Monitor status updates until completion.
-  **4 Close the loop**
Mark tasks as fixed and keep everything documented.

— One simple flow. Total project control.
